LASER TATTOO REMOVAL

Some people who get tattooed can often regret their decision at a later date. What seemed like a good idea at the time can cause major problems in later life. For some people having a tattoo can be a constant reminder of a past rather forgotten, for others it can mean difficulty in securing employment or going for promotion.

To remove the tattoo the laser system delivers a short pulsed beam, which passes through the top layer of skin and is absorbed by the tattoo ink. This causes the ink to fragment and break down into tiny particles, which are gradually removed by the body's immune system. As surrounding tissue is not damaged it is safe to repeat the procedure several times giving the body time to remove as much pigment as possible.

The laser system will remove both professional and amateur (*Indian Ink*) tattoos. Depending on the tattoo size, complete removal could require between 4 - 8 session for a professional tattoo where as the amateur tattoo may only require between 1 - 4 sessions. There is a minor risk of hypopigmentation, where the treated area appears paler than the surrounding skin tone.

A consultation is required to assess each client individually before treatment commences. **All prices are reduced after the 4th session.**

LASER TATTOO REMOVAL

Small (per session)	£50.00
Medium (per session)	£75.00
Large (per session)	£99.00
Extra-Large (per session)	£125.00

NOTE: multiple sessions will be required.

SKIN TIGHTENING

This new Radio Frequency (RF) treatment is a revolutionary non-invasive treatment that can be used to tighten and rejuvenate the skin. As skin matures and is continuously subjected to environmental effects, its connective tissue begins to breakdown, causing wrinkles and other signs of aging to develop.

The Monaliza Bipolar Radio Frequency uses RF technology accompanied by vacuum-assisted positioning and aspirating of the skin for wrinkle removal and skin tightening. By heating the collagen deep in the dermal layers it promotes regeneration, targeting superficial and deep lines and wrinkles.

The technology is pain-free and so effective that it has been clinically proven to produce visible results on skin tightening even after only 1 treatment.

For maximum results, 6 treatments taken one week apart is recommended. The treatment would not need to be repeated for one year thereafter.

RADIO FREQUENCY SKIN TIGHTENING

30 mins (one session) £35.00

180 mins (course of six sessions) £199.00

NOTE: a course of six sessions is recommended, taken on a weekly basis if possible.

FACIALS

Catiovital Facial (1 hour)	£35.00
Catiovital Facial (4 x 1 hour)	£120.00

An advanced, beautifully soothing facial designed to cleanse, regenerate and restore natural radiance to the complexion. Choose from one of our four programmes:

- anti-wrinkle treatment for a more youthful appearance
- super moisturising to regenerate skin
- soothing treatment to de-sensitize skin
- regulating treatment to purify skin

Mini Facial + File & Polish To Nails (1 hour)	£25.00
-----------------------------------------------	--------

DIAMOND PEEL DERMABRASION

The treatment targets lines, wrinkles, dull dehydrated skin, sun damaged skin and acne scarring, as well as congested acne prone skin.

Using a controlled method of skin resurfacing, it gently exfoliates the outer layers of the skin, increasing new collagen and elastin formation to visibly rejuvenate and firm the skin of the face, neck and body.

Results are visible immediately. However, a course of treatments is recommended to achieve the maximum effect.

TREATMENT	1 SESSION	3 SESSIONS
Beauty Flash (30 mins)	£35	£99
Diamond Peel Deluxe (1 hour)	£50	£135

Why not have the best of both worlds by combining the Diamond Peel Dermabrasion followed by the Full Face Photorejuvenation.

Diamond Peel Dermabrasion and Full Face Photorejuvenation	£55.00
-----------------------------------------------------------	--------
